

DESERTED FROM ARMY.

Could Not Resist the Pleadings of His Sweetheart.
Louisville, Ky., Sept. 2.—A quarrel with his sweetheart four months ago resulted in William Hamilton enlisting in the United States army and a letter of forgiveness and begging to return to her caused him to desert.

Hamilton was arrested at his home in this city, and admitted that he had come from the Columbus (Ohio) barracks, being unable to resist the appeal from his sweetheart.
Fred Spivey, also a local youth, deserted with Hamilton, because of a longing, he said, to see his mother, who was arrested several days later. Both young men were taken to Columbus.

Allegiance to New Sultan.
Tangier, Sept. 2.—It is announced that, after receiving a communication from Mulai Hafig, who was named sultan at Morocco City recently, the governors of Saffi, Slat, and Ben Omer, proclaimed their allegiance to the new ruler and made preparations to leave Saffi for Morocco City. A special dispatch from Tangier announced that the European college of that city had arrived safely at Arash.

Stung to Death by Hornets.
Parkersburg, W. Va., Sept. 2.—A nine-year-old son of Barney Kidd, of Walnut Grove, Roane county, died as the result of hornet stings received several days ago. When searching for berries he ran into a nest of hornets and was stung over the body, dying from the injuries received from the insects.

\$15,000 Conflagration.
Tokohama, Sept. 2.—Advices received from the American consulate at Hakodate place the loss caused by a conflagration there at \$15,000,000, 15,000 houses, varying in value, were burned and 60,000 people were homeless. Former estimates are regarded as being too low.

Strike on Mexican Central.
Paso, Tex., Sept. 2.—All the men on the Chihuahua division of the Mexican Central railroad are on strike and mail and train service is stopped. The men have been out since Friday night. The cause of the strike is unknown here.

Plague Case on Shipboard.
Honolulu, Sept. 2.—A case of plague is reported on the mail steamer Sierra, just arrived here, a member of the crew being ill. The passengers have all been landed. The sailing of the steamer will probably be delayed.

Killed by a Cave-In.
Cleveland, Ohio, Aug. 31.—When digging "mine" in a bank along the Cuyahoga and Lake Erie tracks near foot of East Fifty-second street, a boy was killed and three others were hurt by a sudden cave-in. The boy was John Bahara, aged 13.

Nursing Mothers and
Over-burdened Women

In all stations of life, whose vigor and vitality may have been undermined and broken down by over-work, exacting social duties, the too frequent bearing of children, or other causes, will find in Dr. Pierce's Favorite Prescription the most potent, invigorating restorative strength-giver ever devised for their special benefit. Nursing mothers will find it especially valuable in sustaining their strength and promoting an abundant nourishment for the child. Expectant mothers too will find it a priceless aid in preparing the system for baby's coming and rendering the ordeal comparatively painless. It can do no harm in any state, or condition of the female system.

Delicate, nervous, weak women, who suffer from frequent headaches, backache, dragging-down distress, loss down in the abdomen, or from painful or irregular monthly periods, gnawing or distressed sensation in stomach, dizzy or faint spells, see imaginary specks or spots floating before eyes, have disagreeable, pelvic catarrhal drain, prolapsus, anteversion or retroversion or other displacements of womanly organs from weakness of parts will, whether they experience many or only a few of the above symptoms, find relief and a permanent cure by using faithfully and fairly persistently Dr. Pierce's Favorite Prescription.

This world-famous specific for woman's weaknesses and peculiar ailments is a pure glyceric extract of the choicest native medicinal roots without a drop of alcohol in its make-up. All its ingredients printed in plain English on its bottle wrapper and attested under oath. Dr. Pierce thus invites the fullest investigation of his formula knowing that it will be found to contain only the best agents known to the most advanced medical science of all the different schools of practice for the cure of woman's peculiar weaknesses and ailments.

If you want to know more about the composition and professional endorsement of the "Favorite Prescription," send postal card request to Dr. R. V. Pierce, Buffalo, N. Y., for his free booklet treating the same.

You can't afford to accept as a substitute for this remedy of known composition a secret nostrum of unknown composition. Don't do it.

The "Letter Gae."

The leader of postmodernity, or presentism, in the Church of Scotland used to read from his desk in front of the pulpit the successive lines for congregational singing. He was the "letter Gae," i.e., he that let go or started the praise, and his desk was called the "letter Gae" desk. Pitching his voice to the first note of each line, he proceeded to chant the words in a slow, drawling monotone, pronouncing the last syllable for a little and then breaking at the head of the congregation into the music set to the words thus delivered. The effect of this would no doubt be frequently more curious and entertaining than edifying and solemn, and strange developments must occasionally have occurred. The position tested not only the musical qualifications, but also the literary attainments, of the leader, and there are passages in the metrical version of the Psalms as used in Scotland which must have put rural preachers on their mettle—London Notes and Queries.

When to Shoot a Critic.

At a supper party at the Garrick club in London some years ago a theatrical manager wound up a humorous speech by declaring his conviction that it would be to the advantage of the drama if a muster were made of all the theatrical critics and they were shot offhand. Joseph Knight, the critic, called upon to reply to this playful stricture, rose and in his richest tones spoke as follows:

"Gentlemen, I have not the faintest objection, understand me, to the course proposed by Mr. X, provided that in mercy we are shot before being invited to witness such entertainments as our dear friend has recently produced at his theater."

The Federal Convention.

There were sixty-two members of the convention that framed the constitution of the United States. Of these the men who wielded the greatest influence were Washington, Franklin, Hamilton and Madison. Washington's devoted patriotism, Franklin's unflinching common sense, Hamilton's passion for nationality and Madison's unconquerable democracy, fused at last to form what Mr. Gladstone called "the greatest piece of work that ever sprang from the human mind."

If It's a Reputation

You are after, White's Cream Vermifuge has a world wide reputation as the best of all worm destroyers, and for its tonic influence on weak and unthrifty children. It improves their digestion and assimilation of their food, strengthens their nervous system and restores them to health and vigor natural to a child. If you want a healthy, happy child get a bottle of White's Cream Vermifuge. Sold by W. M. Johnson.

Curran's Retort.

Justice Robinson's encounter with John Philip Curran has been stated by Lord Brougham to have been the most successful instance of reported on record. Justice Robinson was known to be the author of some anonymous pamphlets, a circumstance which was Curran's opportunity to retort upon the judge, and he found a chance to crush him when a young and inexperienced judge was on the bench.

"I have searched all my law books," said Curran, "and I can find no precedent on the point."

"Your law is here," said the judge, "is rather contracted."

"My lord," replied Curran, "I have few, but the little pages give me the wisdom of the law. My lord is the dispenser of law, and I am a subject of the law, and I am a subject of the law."

"If you say another word, sir," said the judge, "I'll commit you."

"Then, my lord," replied Curran, "it will be the last thing you have committed this term."

The judge consented to go. Curran disappeared, but failed.

Where Ignorance Was Not Bliss.

A story is told of a man who, crossing a disused coal field late at night, fell into an apparently bottomless pit and saved himself only by grasping a projecting beam. There he clung with great difficulty all night, only to find when day dawned that his feet were only four inches from the bottom.

Today is the Best.

One of the illusions is that the present hour is not the critical, decisive hour. Write it on your heart that every day is the best day in the year. No man has learned anything rightly until he knows that every day is doomsday.—Emerson.

It is difficult to say who does you the most mischief, enemies with the worst intentions or friends with the best.—Bulwer.

GOT HIS HAIR BACK.

Was Perfectly Bald When He Started to Use Newbro's Herpicide.

Frederick Mansell, Maryland block, Butte, Montana, bought a bottle of Newbro's Herpicide, April 6, '06, and began to use it for entire baldness. The hair follicles in his scalp were not dead and in 20 days he had hair all over his head. On July 2 he writes, "and today my hair is as thick and luxuriant as any one could wish." Newbro's Herpicide works on an old principle and with a new discovery—destroy the cause and you remove the effect. Herpicide destroys the germ that causes dandruff, falling hair, and finally baldness, so that with the cause gone the effect cannot remain. Stops falling hair at once and a new growth starts. Sold by leading druggists. Send for stamps for sample to The Herpicide Co., Detroit, Mich.

Two sizes—50 cents and \$1.00.

S.S.S. HEALS
OLD SORES

An old sore or ulcer is only a symptom, an outlet for the impurities and poisons which are in the blood, and as long as this vital fluid remains in this impure, contaminated state the place will never heal. The application of salves, washes, powders, etc., may cause the spot to scab over, but a fresh outpouring of diseased matter from the blood starts it again, and thus it goes on, gradually growing worse and slowly affecting the entire health of the sufferer. There are many ways in which the blood becomes contaminated and poisoned. A long spell of sickness breeds disease germs in the system, the failure of the eliminative members to remove the refuse and waste matter of the body, the excessive use of mineral medicines in certain diseases, all infect the blood with morbid matter and germs which sooner or later is manifested by a sore that refuses to heal. Persons with inherited blood taint are very apt to be afflicted with sores and ulcers. The taint may lie dormant during young, vigorous life, but when middle age is reached or passed and the natural energies begin to grow weaker, the taint in some weak point break down and a chronic sore is formed and kept open by the constant drainage of impure matter from the blood. If the cause is not removed the sore will continue to grow worse by eating deeper into the flesh, festering, discharging, and slowly undermining the constitution. S. S. S. heals old sores by going down to the very bottom of the trouble, driving out the impurities and building up the entire circulation. When S. S. S. has removed the cause the blood becomes rich and healthy, the sore begins to heal, new flesh is formed, and soon the place is cured. Do not depend on external applications, which do not reach the blood, but begin the use of S. S. S. and remove the cause, and then the sore must heal. Book on Sores and Ulcers and medical advice free. THE SWIFT SPECIFIC CO., ATLANTA, GA.

STATE INSTITUTIONS: HIGHER EDUCATION

University of the State of Fla. GAINESVILLE, FLA.	Florida Female College. TALLAHASSEE, FLA.
